Don Lewis Tankards

These are the finest wooden drinking tankards in the known world, suitable for icy cold to boiling hot beverages, and guaranteed not to leak. Each tankard is hand crafted with a selection of the finest and most attractive hardwoods, so that no two are alike, and estimated capacity will vary. Each tankard is an individual work of art, yet is authentic and rugged. Some tankards are available with either plain or fancy handles, please let us know if you have a preference. Capacity sizes are estimates only, and will vary between individual tankards. Each is individually hand made by Don Lewis (a Master Craftsman and all around good person) in the USA.

Economy Tankard
DL-BABY
Coffee Mug Sized, Holds about one
small soda can worth of liquid.

4-1/8 x 1 inch

Metal Feastgear

Our CA metal dinnerware is the most durable feastgear available. This metal is virtually indestructible, and has the look, feel and weight of quality solid pewter. The metal is a lead-free alloy that is stronger than real pewter, while retaining pewter's warmth and charm. Each piece is individually hand cast and polished to a smooth matte finish.
